

THE RELIANCE COMMODITIES TRADING PARTNERS

Reliability and the highest quality service are the fuel for a successful relationship

Customer experience at Gantisa is one of the main points of our strategy to achieve our vision of becoming your partner of choice. Our strong and long-standing reputation is built on the dedication of our people, who make sure that you, our customers, feel fully supported in every step. Our main goal is to find you the way we would like to be treated ourselves. Our experienced teams of market leaders are committed to your service, to find the most satisfying business solutions that meet your needs. Taking all aspects into consideration, Gantisa provides high quality services with specialized analyses and constant follow-up.

With the highest response rates, we will go to any length to meet your needs and take responsibility for any setbacks that might occur.

OUR STANDARDS

Always forward going simple, clear and accurate information so that you can make informed decisions.

Always there for you making it easy for you to contact us so we know that your time is precious.

At your service going anything to meet your further needs. We always take care to make sure we focus on improving the things that are important.

THE GANTISA HOUSE

Gantisa Trading Partners was established in 1985 and has since developed into a global commodity merchant, with a presence in all the major global commodities hubs.

Gantisa is a global diversified merchant and client solutions provider in the commodities space covering a range of agricultural, industrial, and energy products. Gantisa provides support to our clients throughout the entire value chain with a proven strategy focused on financing, marketing, transportation, and risk mitigation.

GEOGRAPHY OF OPERATIONS

GANTISA METALS & MINERALS:

Gantisa is one of the world's leading metals and minerals traders, having built up a global network between producers and end users. Gantisa focuses on efficiency and risk mitigation throughout the entire value chain – sourcing from miners, smelters, and distributors to our industrial consumer base. We source volumes through off take agreements for short and long term purchases with a partnership normally based on strategic long-term relationships.

GANTISA AGRICULTURE:

Gantisa is one of the world's leading metals and minerals traders, having built up a global network between producers and end users. Gantisa focuses on efficiency and risk mitigation throughout the entire value chain – sourcing from miners, smelters, and distributors to our industrial consumer base. We source volumes through off take agreements for short and long term purchases with a partnership normally based on strategic long-term relationships.

GANTISA FREIGHT & LOGISTICS:

Physical commodity sourcing and marketing requires the highest standards in the handling and shipment of goods from supplier to customer often including storage activities. Gantisa is currently one of the largest global warehousing companies, with a presence in strategic locations and with registration of our core facilities. Our freight business provides long-term solutions and freight market guidance to Gantisa's various commodity portfolios and third party clients.

At Gantisa we work to address imbalances between producers and consumers, providing long-term solutions to our customers throughout our portfolio of sustainable supply contracts.

BUSINESS MAP STRATEGIC POINTS

Gantisa conducts its operations through eight branches located in Canada, South Africa, South Korea, Singapore, Russia, Brazil and South Africa. The map below sets the locations of Gantisa's operations and offices. Map 1: Geography of Gantisa's operations

YEARS OF LEADING

Gantisa has an integrated business model founded on research, financing, warehousing, logistics and risk management. We have a worldwide footprint operating in 15 different global platforms throughout our 34 offices in 18 Countries.

Our goal is to facilitate the marketing, financing, warehousing, and transportation of essential raw materials. We operate from the beginning to the end of the global commodity value chain.

We originate, transport, and merchandise approximately 5 million tonnes per year of commodities, servicing over thousands of customers around the world.

Gantisa has a solid capital structure and strong balance sheet which enables us to offer financing to our clients.
